### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to eukaryotic expression vectors which comprise particular HIV-1 nucleic acid sequences. Applicant correctly notes that the Chang patent fails to anticipate these claims because Chang's vectors would not express the HIV-1 proteins. Therefore, Chang does not anticipate the claimed invention. Further, since the claims are drawn to specific open reading frames of the HIV-1 virus which differ from the open reading frames of Chang, there would not have been motivation to select these particular open reading frames for eukaryotic expression vectors. Therefore, the claimed invention is novel and unobvious over the Chang reference. There is no other prior art which even purports to disclose the same sequence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Fredman whose telephone number is (571)272-0742. The examiner can normally be reached on 6:30-3:00.
